## SEEDMEN and PLANT BROKERS

42 South Street

New York, N. Y.

### Price List

(THIS LIST CANCELS ALL PREVIOUS QUOTATIONS)  
(Subject to change)

#### Terms of Sale

We give for ourselves or our principals no warranty, express or implied as to description, quality or productiveness or any other matter of the seed, plants or bulbs we deliver, nor will we be responsible for the crop in any way. In no case shall we or our principals be liable for more than the value of the seeds, plants or bulbs delivered.

**PAYMENT:** ON SEED net cash less 5% for unestablished accounts; others less 5% if paid within ten days or 60 days net.

ON NURSERY STOCK to be arranged at time of sale.

**PRICES** are for net weights, packing extra at cost.

#### Nursery Stock

##### Our Aim

Being purely BROKERS our sole interest is to secure for you the best grades of stock at the most advantageous prices and to find a market for your surpluses. We list the stock only of those growers who include in their published prices our brokerage. In many cases, however, we can name lower prices as growers desiring to move their stock give us confidential prices to be named only upon application.

Nurserymen are invited to use these columns freely. Our brokerage is charged to the seller; buyers are under no expense. Stock purchased through this department is shipped and billed by the grower in his own name, direct to buyer. Our brokerage is earned upon perfecting sales contract acceptable to buyer and seller.

We endeavor to follow "Standardized Plant Names" and the Standards of the American Association of Nurserymen. Observation of these simplifications will insure prompter service.

#### WE HAVE BUYERS FOR

practically all classes of Evergreens and Ornamentals. If you can offer at attractive prices do so at once, giving common and horticultural name, age, size and description of stock and prices, **including our brokerage**.

##### WE OFFER

Everyone will find interest in the following list of grafts for spring delivery and potted rooted cuttings. There is a good demand for these so secure your needs quickly. Larger sizes quoted upon special request.

For Delivery after 1929 Crop

Early maturing seeds are generally delicate in structure and of low vitality. The laws of Nature generally require that they be planted soonest possible after harvest. Let us have your order now so that we can ship them to you immediately after collection.
